

MessageSolution Awards Global Partners for Outstanding Global Support and Strategic Market Growth

Milpitas, California, January 12, 2010 -- MessageSolution, Inc., the global technology leader in email, file system, and SharePoint archiving solutions for electronic discovery, litigation support, compliance, and storage management, today announces the winners of the MessageSolution Global Partner Awards. These awards are presented to the most active, engaged, and impressive partners and account executives in MessageSolution's Global Partners Network during 2009.

This year's award winners were selected from among a collection of outstanding MessageSolution partners and account managers across the world.

Ford and Associates from Cuyahoga Falls, Ohio, was awarded MessageSolution's Most Impressive Partner of the Year Award for 2010. Ford and Associates specializes in providing information system consulting services for government agencies, banks, doctors, lawyers, academic institutions and nonprofits.

About Ford & Associates

Ford and Associates specializes in providing information system consulting services for government agencies, banks, doctors, lawyers, academic institutions and nonprofits. Acting as advocates as well as consultants, Ford and Associates have been able to provide and support solutions tailored to each client. The actual 'nuts-and-bolts' of any networking solution involves carefully integrated hardware and software components. Ford and Associates will fit these pieces together using the best offerings from Microsoft, Novell, Compaq, IBM, HP and more to build a custom design which will meet businesses' individual needs.

About MessageSolution, Inc.

MessageSolution is the global technology leader in email, file, and SharePoint archiving software for electronic discovery, compliance, and content storage management. MessageSolution enables organizations to mitigate risk, reduce costs and storage requirements, optimize server performance, and comply with industry and federal regulations. Based in Silicon Valley, California, MessageSolution maintains operations in North America, Europe, and Mainland China, along with distribution channels in Europe, Africa, Australia, and Asia Pacific.

MessageSolution Enterprise Email Archive, Enterprise File Archive, and Enterprise SharePoint Archive are on-site and Software as a Service archiving applications serving organizations across all industries, including finance, health care, education, manufacturing, government agencies and non-profit organizations worldwide. MessageSolution software frees IT administrators from daily maintenance and increases overall employee productivity. For more information, visit <http://www.messagesolution.com>.

MessageSolution is actively working with partners around the world to expand its worldwide business presence. Please visit our web site for more information on the Global Partner Network Program.

What Differentiates MessageSolution Products

Customers continually emphasize MessageSolution products' excellent overall performance, support of all major email servers, and ease of use. MessageSolution provides sub-second data retrieval, an intuitive interface, and ease of deployment and maintenance. MessageSolution's intelligent back-end design significantly reduces installation requirements, backup time, and the need for technical support.

MessageSolution Enterprise Email Archive™ deftly manages petabytes of data daily, a powerful enterprise archiving solution. Electronic discovery and litigation support are empowered by the archive's built-in search engine, which searches through millions of emails within seconds across global locations and data centers. Users can access their archive through their email client, browser, or BlackBerry.

In the first quarter of 2009, MessageSolution became the first archiving vendor in the market to deliver a true 64-bit application that runs on a 64-bit OS machine.

MessageSolution delivers the industry's highest enterprise-level scalability and holds the industry record of archiving 15,000 users on one single MessageSolution archive server. Competitive vendors archive on average 3,000-5,000 users on a single archive server, much less than MessageSolution archiving system's scalability and flexibility. A high in-process compression rate combined with single instance message and attachment archiving slows archive storage growth.

Enterprise Email Archive™ further reduces organizations' storage costs by using only 25-30% of the original mail server storage space for live content archiving. MessageSolution's products support all Latin-based languages, as well as all character-based languages, such as Japanese and Chinese.
